Installation Procedure R/H/S

Remove the original swaybar link.

Place swaybar extension bracket No. 3751649 in position as shown.

Mark the positions of the 2 new holes.

Drill two 8mm holes where previously marked.

Assemble the swaybar link and extension bracket as shown.

Bolt the extension bracket in position using the supplied bolts.

Installation Procedure L/H/S

Remove the original swaybar link.

Place the 8mm coach bolt in the extension bracket No. 3756483 as shown.

Coach Bolt

Assemble the swaybar link and extension bracket as shown.

Bolt in position using the existing chassis holes and the bolts supplied.

Connect both lower swaybar links.

Tighten all bolts.

Cable must run at 90° to cylinder.
Adjust if required.
